CAREER OBJECTIVE

Computer Science student with hands-on experience in full-stack development, RESTful API design, and end-to-end project delivery. I enjoy building things that solve real problems — from healthcare platforms to data-driven analytics. I take pride in clean code, thoughtful system design, and a natural ability to lead and manage people. Looking to join a team where I can contribute meaningfully from day one and grow with the product.

SKILLS

Python Java Basics React.js Spring Boot Flask MySQL MongoDB ML / DL NLP Computer Vision GenAI

EDUCATION DETAILS

Master of Computer Science (M.Sc.) Fergusson College, Pune Pursuing	2025 – 2026
Bachelor of Computer Science (B.Sc.) Sangamner College, Sangamner CGPA: 8.98	2022 – 2025
HSC — 12th Board S.S.G.M. College, Kopergaon 74.33%	2021 – 2022
SSC — 10th Board D.K. More Janata Vidyalay, Sangamner 81.60%	2019 – 2020

PROJECTS

UPHI — Unified Patient Healthcare Interface React.js Spring Boot MongoDB Docker	2024 – Present
- Built a complete healthcare platform with three interfaces — patient web portal, hospital dashboard, and a cross-platform mobile app — each serving a distinct user role (patient, doctor, receptionist, admin). - Designed and integrated 20+ RESTful APIs using Spring Boot and MongoDB, covering patient records, scheduling, pharmacy, consent management, and AI-generated clinical summaries via Gemini API. - Implemented JWT-based auth with role-based access control; mobile app supports QR-based patient verification and document uploads. Full stack containerized using Docker Compose.	
NIQ Media Analytics — Ad Impression Predictor Python ML / DL Random Forest	2025
- Analysed 50,000 real streaming sessions across subscription tiers, age groups, and devices to uncover ad engagement patterns — delivered for NIQ Media Analytics as Team DataGrinders, Fergusson College. - Engineered 5 custom features; evaluated 3 models — Random Forest achieved 99.8% prediction accuracy with error < 0.01 ads/session. Projected to unlock +119K additional ad impressions for NIQ. Team DataGrinders shortlisted for the Final Round.	
Personal Portfolio Website React.js Framer Motion Vite	2024
Designed and built a fully responsive personal portfolio with smooth Framer Motion page transitions, reusable component architecture, and an optimized Vite production build.	

EXTRA CURRICULAR ACTIVITIES

Event Management & Leadership
- Independently planned and managed the BSc Second Year class trip to Konkan — coordinated transport, accommodation, itinerary, and budget for the full batch. - Co-organised and managed TechnoFest, the annual Science Department festival — handled event scheduling, stall coordination, team management, and ensured smooth execution of technical and cultural activities across the department. - Organised the Farewell ceremony for BSc Third Year students — handled end-to-end coordination including venue, programme flow, décor, and student participation. - Managed the Freshers' Party for incoming BSc First Year students — designed the event schedule, coordinated volunteers, and created a welcoming experience for new students.

ACHIEVEMENTS

- NIQ Media Analytics Challenge — Achieved 99.8% model prediction accuracy; Team DataGrinders shortlisted for the Final Round, Fergusson College, M.Sc. CS 2025. - Interests: Event management & leadership, talking with unknown persons, playing cricket, and listening music.
